Series INNOVA

Series INNOVA

SOK

Innova is a range of wiring devices that combine function and style. The design is smooth, clean and the products are very slim – in fact just 4mm. An impressive yet subtle statement, available in an unrivalled range of finishes, Innova is the choice in modern, contemporary or traditional interiors where style and detail are the desired effect. In addition to the wide choice of standard finishes, a custom design service gives designers the ability to match almost any RAL colour required.

With Innova comes unrivalled safety. Utilising Chilid-proof safety shutter, that prevents misuse and unsafe access to live circuitry, Innova offers the user the peace of mind and comfort that they have the safest range of wiring devices available installed in their surroundings.

Slim profile frontplates of only 4mm

A clean and practical range of products that complement the finest interiors

Total safety

“child resistant shutter system”, which is designed to inhibit access to the electricity supply by the children

Comprehensive range of sockets, switches and modular ancillary products

Mean that whatever the application, the Innova range has a wiring device to suit
